TECHNICAL SKILLS

Languages: Java, Python, C/C++, PostgreSQL/MySQL, MongoDB, JavaScript, TypeScript, HTML/CSS, R
Frameworks: Angular, React, React Native, Node.js, Express.js, Next.js, Django, Expo, Spring, Bootstrap
Dev. skills: Git, Agile/Scrum, Version Control, CI/CD, Debugging, Unit Testing, Data Structures and Algorithms
Dev. tools: GitHub, GitLab, Docker, Jira, Bitbucket, Postman, VS Code, AWS, Azure, GCP, IntelliJ, Eclipse

EXPERIENCE

Software Engineering Co-op Jan. 2022 – Aug. 2022

Dodge Construction Network Vancouver, BC

- Developed high quality software and features in accordance with team requirements and feedback
- Successfully diagnosed and resolved a performance issue, resulting in a 30% increase in page rendering speed
- Implemented unit test code and provided assistance in additional relevant test automation
- Played a crucial role in advancing ongoing enhancements for existing and future systems, collaborating with cross-functional groups including Quality Assurance, Operations, and Client Services

Co-Founder and Chief Innovation Officer Jul. 2019 – Jun. 2021

Popular Innovation Inc. Calgary, AB

- Influenced and directed IT infrastructure to align with and drive critical business strategies and processes
- Applied advanced expertise in emerging technologies to successfully achieve critical business objectives
- Established agile and responsive teams for the milestones of both cloud-based and stand-alone systems, collaborated effectively across teams on various projects, and served as a member on the board of directors

Data Analyst and Blockchain Engineer May 2021 – Aug. 2021

HACCTECH Ltd. Calgary, AB

- Utilized Python/SQL to conduct various Data Analytic tasks, including data wrangling, exploratory data analysis, data trending, feature extraction, pattern interpretation, BI dashboard with Tableau
- Fully implemented blockchain ecosystem by integrating cryptography, Ethereum, coupling with designing, multi-threaded coding, testing, troubleshooting, and evaluating blockchain projects

EDUCATION

The University of British Columbia

Bachelor of Science in Computer Science

Vancouver, BC

Sept. 2019 – May 2024

PROJECTS

Flash | *JavaScript, HTML/CSS, Prisma, Node.js* Jan. 2023 – Present

- Developed a full stack web app connecting students and tutors seamlessly, with user-friendly profiles for posting standard or expressed listings and personalized contact information
- Designed and implemented an intuitive UI and a smooth user experience with JavaScript for the front-end and a robust back-end system utilizing Prisma and Node.js featuring custom API endpoints

insightUBC | *TypeScript, JavaScript, HTML/CSS, Node.js* Sept. 2022 – Dec. 2022

- Built a full-stack web app allowing users to query UBC campus metadata and search for courses
- Designed and optimized the user interface and front-end using JavaScript and HTML/CSS, while implementing functionalities in the TypeScript-powered Node.js back-end with a RESTful web server architecture

CERTIFICATION

Amazon Certified

AWS Certified Developer Associate (DVA-C02)

Remote

Dec. 2023

- Mastered core AWS services, comprehensive architecture best practices, and in-depth usage understanding
- Developed, deployed, and skillfully debugged cloud-based applications with optimal efficiency on AWS

Microsoft Certified

Microsoft Azure Developer Associate (AZ-204)

Remote

Jul. 2023

- Design and deploy Azure solutions encompassing compute, storage, and service consumption
- Secure, monitor, troubleshoot, and optimize Azure solutions, including third-party service connectivity
